Profile

I am a qualified and professional Full Stack developer with One year of experience in website design. Strong creative and analytical skills. Team player with an eye for detail.

SUMMARY

Highly motivated and detail-oriented Full Stack Developer with a strong foundation in Python, Java, PHP, MySQL, and front-end technologies (HTML, CSS, JavaScript). Passionate about building efficient, scalable applications and leveraging data analytics to enhance decision-making processes. Adept at problem-solving, debugging, and collaborating with cross-functional teams to deliver high-quality software solutions. Seeking opportunities to contribute technical expertise in software development and data analysis.

PROJECTS

E-Commerce Website Development

- Developed a full-stack e-commerce platform using Python, Flask, MySQL and JavaScript
- Implemented User authentication, product catalog, shopping cart and payment gateway integration.
- Optimized database queries to improve site performance and reduce response time.

Frameworks

- Django, Spring Boot

Other Skills

- Problem-Solving, Debugging, Agile Development, API Development, Cloud Computing, Linux

Data Visualization Dashboard

- Built an interactive dashboard using Python, Pandas and Matplotlib to analyze business data.
- Integrated real-time data updates and visual insights to aid in decision-making.
- Deployed the dashboard on a cloud-based server for accessibility and scalability.
